## Our pricing model – Transparent and fair

We offer attractive pricing models: single fees, fixed fees (all-in) or, upon request, performance- based terms. Our aim is to ensure fair and transparent pricing.

We also waive trailer fees for our LLB funds, which makes them more attractive. We pass on to you the full amount of trailer fees received for third-party funds.

Our pricing structures are simple and straightforward, and our conditions can be understood at a glance.

This pricing brochure shows only the fees of LLB. Additional third-party fees as well as product and foreign exchange costs may apply in securities business.

## Forms of investment

	One-off	Staggered	Systematic
Description	You decide to invest the entire investment amount immediately in one of our classic investment strategies.	You would like to mitigate the risk of an unfavourable point of entry by reducing the equity quota for your Comfort asset management mandate gradually. Regardless of the point of entry, eight per cent of the target equity share will be taken from money market investments and reinvested in equities at the beginning of every quarter.	You would like to build up wealth over time with small amounts or invest an available amount periodically in LLB funds or under the Comfort asset management model. In both cases, the risk of investing at the wrong time is minimised.
Objectives	Investment of the entire investment amount	Careful, gradual increase of the equity share of the investment over a period of around two years	<i>Fund savings plan:</i> Regular purchase of fund units <i>Investment plan:</i> Periodic investments of a specified investment amount over 3, 6, 9 or 12 months

## LLB Comfort

### Stress free – Outstanding asset management, optimised continually

By choosing our asset management services, you entrust us with responsibility for the professional management of your portfolio. We will send you regular, comprehensive, and detailed reports to explain how your portfolio is developing.

The following structures are possible here:

- World
- Switzerland
- Alternative
- Passive

You can choose between direct or collective investments, along with the pricing models of all-in and all-in performance-based.

Regardless of the structure, you will benefit from our systematic approach to asset management and the risk control measures we adopt. Our investments are broadly diversified, and we monitor your portfolio continually. If you issue a mandate to us, we will assume responsibility for daily investment decisions and take over the administration of your custody account.

### Our pricing models

#### All-in model

The all-in fee covers:

- Asset management
- Securities management
- Surcharges for custody account abroad and physical storage
- Securities trading fees (LLB fees and third-party fees)

We charge the all-in fee on the basis of the average total assets under management. The fee is debited quarterly, when a modification occurs (change to the form of implementation, investment strategy or pricing model) or when the mandate is closed.

#### All-in model – performance-based with high-water mark

This performance-based model incorporates the fees listed for the all-in model, but is made up of two components:

- Cheaper base fee
- Performance fee

We charge the **base fee** on the basis of the average total assets under management. The fee is debited quarterly, when a modification occurs (change to the form of implementation, investment strategy or pricing model) or when the mandate is closed.

We charge the **performance fee** only if:

- the average total assets under management (Ø assets) performed positively at the end of the year after deducting all costs and
- the cumulative performance (TWR) at the end of the year exceeds its previous high (HWM).

The performance fee of 20 % (rate) is charged annually, when an adjustment is made or when the mandate is closed.

#### Calculation of performance fee

Chargeable performance =  $(1 + \text{TWR}) / (1 + \text{HWM}) - 1$

Performance fee = Chargeable performance × Ø assets × rate

The all-in model does not include, in particular, costs of currency conversions, any product costs or third-party fees or charges.

#### Services included

In LLB Comfort, numerous services are free of charge for you:

#### Fees included for basic and additional services<sup>1</sup>

- LLB Pro (see page 26)
- Tax report for Liechtenstein, e-tax statement for Switzerland, tax reports for other domiciles, general client report

<sup>3</sup>We add a surcharge of 0.15 per cent p. a. for client-specific investment instructions (not possible for passive forms of implementation or during asset accumulation for staggered investments). If the investments are sold entirely or in part upon termination and transferred away from LLB, a fixed brokerage fee of 0.50 per cent is payable.

<sup>4</sup>LLB Comfort Switzerland is available in strategies ranging from Yield to Equities.

LLB Comfort Alternative is available in the strategies of Yield and Balanced.

<sup>5</sup>LLB Comfort Passive is available in the strategies ranging from Yield to Equities.

<sup>6</sup>The performance fee is debited only on the part of the positive annual performance that exceeds the previous high-water mark.

## LLB Expert

### Dedicated – Always abreast of market developments

LLB Expert guarantees you our tailored expert advice. We monitor your portfolio continually, inform you of any developments with an impact on risk and immediately send you recommendations for optimising your portfolio. This ensures we offer the best possible management of your investments. On request, you can also access our investment specialists and their proven expertise. LLB Expert offers you the ideal framework for actively managing your assets yourself while at the same time benefiting from our specialist knowledge.

### Our pricing models

#### Single-fee model

For the LLB Expert model, you pay:

- Investment fee  
(includes advisory service and securities management)
- Possible surcharges for
  - Custody account abroad (0.10 % p. a.)
  - Physical storage (0.15 % p. a.)
- Securities trading fees  
(see page 22)

The calculation basis for the investment fee and surcharges is the custody account volume. Only the advisory component of the investment fee (0.50 %) is charged on tactical liquidity. The fees are debited quarterly, when the product or pricing model is modified or when the mandate is closed.

#### All-in model

With the all-in model, you pay the all-in fee. It includes all fees listed for the single-fee model. The all-in fee is debited quarterly, when the product or pricing model is modified or when the mandate is closed. The basis of the calculation is the custody account volume, including tactical liquidity.

The single-fee model and the all-in model do not include, in particular, costs of currency conversions, any product costs or third-party fees or charges.

## Discounts and services included

In LLB Expert, numerous services are discounted or free of charge for you:

### Discounts on the investment fee<sup>7</sup>

## LLB fund savings plan

### Saving with a system

The LLB fund savings plan is ideal for creating savings for the longer term – for goals you might realise at a later point in time, or as a complement to your private pension. The longer the period over which you invest, the more independent you will be from short-term exchange rate fluctuations.

You can achieve your individual savings goal flexibly and systematically. You define a savings amount and pay it into your fund savings plan account. The easiest way is to place a standing order with a fixed amount. We will invest this amount systematically in the LLB fund or funds of your choice. We will purchase both full and partial fund shares on your behalf. If your account balance is temporarily insufficient to cover the minimum investment amount, we will not undertake the investment.

Set up your fund savings plan account with your advisor or online. Using LLB Online Banking/LLB Mobile Banking, you can open and manage your fund savings plan account at any time.

### Discounts and services included

- We offer a discount of 25 per cent<sup>12</sup> on the securities management fee and the investment fee.<sup>13</sup>
- You also benefit from a discount of 50 per cent on issue and redemption commissions.<sup>12</sup>
- Children and young people with a «youli» or «you save» account benefit from an additional discount of 100 per cent on the issue commission.
- If you conclude an agreement for the fund savings plan in combination with the LLB Basic, LLB Consult or LLB Expert model, various basic and additional services are included.

### Fee calculation<sup>14</sup>

- No minimum fees apply to the LLB fund savings plan.
- You can find details on securities management and securities trading fees from page 20 onwards.

<sup>12</sup>Cannot be combined with discounts offered under LLB Expert, LLB Consult or LLB Basic.

<sup>13</sup>Under the LLB investment plan, the amount not invested during the investment phase is not subject to any fees.

<sup>14</sup>If vested pension benefits are invested in LLB funds, issue and redemption are governed by the conditions of the fund savings plan. Securities fees and investment fees are waived.

## LLB investment plan

### Systematically build wealth

You invest a specified investment amount through periodic investments in LLB funds or in one of our asset management strategies under the LLB Comfort asset management model. Once the investment phase has been completed, 100 per cent of the single contribution will have been invested.

### Fee calculation

- LLB funds option: The applicable terms and conditions are the same as those applicable to the LLB fund savings plan, and the amount not invested during the investment phase is not subject to any fee.
- LLB Comfort option: The LLB Comfort terms and conditions (see page 10) are applicable, and the amount not invested during the investment phase is not subject to the all-in fee.

# Single-fee model

## How it works

### Securities management

#### Professional and fair

We keep your securities safe in a securities account and manage your account for you. With our LLB Online Banking/LLB Mobile Banking, up-to-date information on your investments is always at your fingertips. You can check your current portfolio and find out valuation and development information at any time.

LLB passes on to its clients the full amount of trailer fees received for third-party funds. The amounts are credited in arrears quarterly and within four months, and a detailed calculation is provided.

#### The securities management fee includes the following services:

- Custody account
- Portfolio statement
- Calculation of third-party trailer fees
- Delivery of securities in electronic form
- Collections
- Corporate actions (exercise of stock rights for capital increases, stock splits/reverse splits, mergers/spin-offs, stock dividends, exercise of warrants, name changes)

#### In particular, the following items are not included:

- Costs of currency conversions, any product costs and third-party fees and charges

- Management services involving extraordinary costs
- Fees for investment advice (for LLB Invest conditions, see section 01).

The calculation basis for the securities management fee and surcharges is the custody account volume. The fees are debited quarterly, when the product or pricing model is modified or when the securities custody account is closed.

For precious metals, we offer the option of a precious metals collective safe custody account, or we can open a metals account for you. You can also store them in one of our safe deposit boxes.

#### Discounts on the securities management fee

- Securities management fees on custody account assets invested in LLB funds are calculated separately and receive a 25 per cent discount.<sup>15</sup> You are also not required to pay the minimum fee if your custody account only contains LLB funds.
- Custody account volumes invested in LLB equities and LLB medium-term notes receive a 100 per cent discount on the securities management fee.

#### Discounts on securities trading fees

- 50 per cent for transactions executed using LLB Online Banking/LLB Mobile Banking

<sup>15</sup>Only applies to clients with LLB Comfort, LLB Expert, LLB Consult or LLB Basic.

## Securities trading

### Professional and straightforward

We execute securities transactions worldwide for you. We accept trading orders during the Swiss Stock Exchange's trading hours (online until 10 p.m.) – even on local Liechtenstein public holidays.

### **We trade on your behalf in all common securities and precious metals:**

- Shares and other equity securities
- Bonds and money market papers
- Investment funds
- Futures, options and other derivatives
- Structured products<sup>18</sup>
- Precious metals and coins

If you wish to subscribe to a new issue, our traders can assist you by assuming responsibility for the coordination and submission of your subscription form.

### Fee calculation

- Use LLB Online Banking/LLB Mobile Banking to execute your stock market transactions online and take advantage of the 50 per cent discount on our own brokerage fees as well as issue and redemption commissions for LLB funds and third-party funds.
- As a rule, the purchase and sale of LLB funds is not subject to minimum fees.
- Our fees apply to the trading volume per settlement.
- They do not include any third-party brokerage fees, delivery charges, stock exchange and registration fees, securities transfer tax, other taxes, etc.

<sup>18</sup> Prices for structured products are available on request.
